## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

### DETAILED ACTION

This action is responsive to applicants' amendment and response received September 10, 2007. Claims 1-15 are currently pending.

#### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wells et al, US 2003/0202952.

Wells et al teach a shampoo containing anti-dandruff particles, an example of which comprises 12% sodium laureth sulfate, 2% sodium lauryl sulfate, 2% cocoamidopropyl betaine, 2% sodium lauroamphoacetate, 1% anti-dandruff agent, 0.5% cationic polymer, and the balance water (page 13, example 1). The compositions have a preferred pH as high as 7.5 (¶73), and in addition to the anti-dandruff agents, an additional anti-microbial agent may be added such as clotrimazole (¶54). Accordingly, it would have been obvious to one of ordinary skill in the art to include clotrimazole as an anti-microbial agent in example 1 with a reasonable expectation of successfully obtaining an effective anti-dandruff shampoo.

Applicants have traversed this rejection on the grounds that the anti-dandruff agent of the reference is in particulate, not solubilized form. Though this is true, the

Art Unit: 1796

climbazole is taught as an antimicrobial, not a particulate anti-dandruff agent, and so is not present as a particulate. Furthermore, upon further research, the examiner has found numerous teachings that climbazole, when used in shampoos, is not present as a particulate, but rather in solubilized form. Accordingly, if climbazole was used in example 1 it would be in a solution, and so this claim limitation is satisfied. The examiner acknowledges that in the previous office action, climbazole was erroneously identified as an anti-dandruff agent, and the examiner regrets the error. However, the teachings of the reference, though originally misinterpreted, give guidance to one of ordinary skill to add an additional antimicrobial with a reasonable expectation of successfully obtaining an effective anti-dandruff shampoo, and so the rejection is still valid and is maintained.

### ***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

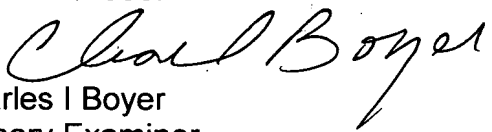

Art Unit: 1796

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
